

MISSOURI WATER & WASTEWATER
ASSOCIATION

CORPORATE SPONSORSHIP OPPORTUNITIES

ABOUT OUR ORGANIZATION

For over 100 years, the Missouri Water & Wastewater Association (formerly Missouri Water & Wastewater Conference) has served the operators, engineers, regulators, and industry partners dedicated to protecting public health and the environment. Rooted in decades of collaboration, the organization reflects Missouri’s long-standing commitment to safe drinking water and effective wastewater management. Through the years, the MWWA has evolved from a technical meeting into a comprehensive event featuring operator training, regulatory updates, technology showcases, and networking opportunities, all aimed at advancing best practices and ensuring resilient water infrastructure for communities across the state.

WHAT WE’RE DOING

The Missouri Water and Wastewater Association is entering an exciting new chapter—one defined by modernization, stronger member value, and a renewed commitment to leading the future of water across the state. Building on a proud legacy of service, the Association is evolving to better meet the needs of today’s professionals by expanding high-quality training, enhancing digital engagement, and creating more accessible pathways for certification and career development. You’ll see a greater emphasis on year-round programming, innovative conferences and events, and deeper collaboration to unify the voice of Missouri’s water sector. At the same time, the Association is investing in modern technology, improved communication platforms, and data-driven decision-making to better serve members and anticipate industry challenges. This new direction is about more than change—it’s about positioning the Association, and its members, at the forefront of innovation, workforce development, and environmental stewardship for years to come.
